### Negroes, Tenant Farmers and Indians spread Reign of Terror in Oklahoma

## SHERIFFS FORM POSSES

### Hundreds of Armed Civilians in Five Affected Counties to Attempt Arrests

## STATE OFFICIALS ANXIOUS

**BULLETIN.**  
**MUSKOGEE, Okla., Aug. 3.**—Fighting between draft resistors and officers is going on 25 miles north of Ada, according to Under-Sheriff Purvine, of Okmulgee county, who received a report from there late tonight.

**BULLETIN.**  
**ADA, Okla., Aug. 3.**—Sheriff Bob Duncan of Pontotoc county reported captured by draft resistors at Seminole returned to Ada at 9:30 o'clock tonight with ten prisoners, captured five miles northwest of Sasakwa where a mob is reported to be centered. There were about 80 persons in that particular gathering Sheriff Duncan said. They were dispersed by a posse of 25 citizens who released eleven prisoners held by the mob.

**OKLAHOMA CITY, Aug. 3.**—Groups of men, numbering probably four hundred in the aggregate, have armed themselves and are gathering in several places in South Central Oklahoma tonight prepared to resist forcibly their selection as soldiers under the draft law. Discovery by officials late tonight of the existence of a number of bands of resistors, who are thought to have established a base near Shawnee, a few miles south of this city, has increased the anxiety of the state officials as to the probability of confining the agitation within the five counties already affected.

**Armed Civilians to Act.**  
At the direction of Governor Williams, who hesitates to use National Guardsmen against the resistors, hundreds of armed civilians in Seminole, Hughes, Pontotoc, Okmulgee and Pottawatomie counties will make an effort at dawn tomorrow to arrest the resistors. According to late reports to Governor Williams, one of the bands is near Sasakwa, another at Holdenville, another at Wewoka and the last heard from had gathered at Rock Crossing on the South Canadian River.

Several arrests have been made of men charged with resisting the draft throughout the affected localities and one, a Socialist agitator, was arrested at Holdenville when it was discovered he was carrying a grip filled with ammunition. Sheriffs of the five counties have informed the governor that the situation is out of their control and state officials await with anxiety the outcome of the proposed attempt by the civilian posses to arrest the men.

**Influence Not Determined.**  
The bands are composed for the most part of negroes, Indians and farmers who are tenants on the lands held by the government in trust for Indians. It has not been determined what influence was behind the movement to resist the draft law.

**Gather at Rock Crossing.**  
Shawnee, Okla., Aug. 3.—One hundred and fifty men, said to have gathered with the intention of resisting the selective draft were reported here tonight to have gathered at Rock Crossing on the South Canadian River, the boundary between Seminole and Hughes counties. This point was expected to be the resistors' base of operations.

Roy Crane, a Socialist agitator, was arrested today at Holdenville. He carried a grip filled with ammunition and was heavily armed.

**Assemble all Rifles in Town.**  
Muskogee, Okla., Aug. 3.—William Townsend, chief of police of McAlester, and Thos. Conn, sheriff of Pittsburg county, are assembling all the rifles in McAlester to take to Holdenville on a train leaving McAlester at midnight. A posse, formed on the ration of one man to every two rifles, will leave on the same train. The rioters declare, according to despatches from the scene of the trouble, is to seize a train and run it to Washington, there to uphold their stand before President Wilson.

The motto of the rioters is: "This is a rich man's war. Let us fight to the death at home rather than be killed in the trenches."

## COMMITTEE PUTS WAR BILL INTO FINAL FORM

### Measure Provides for Approximately Two Billions in Taxes

Final Re-draft Will Be Presented to the Senate As a Bi-partisan Measure Monday and May Be Called Up for Debate Wednesday.

WASHINGTON, Aug. 3.—The war tax bill, under revision since May 24, was put into final form for report to the senate today by the finance committee. It provides for approximately \$2,000,000,000 in taxes to meet war expenses but makes no provision for more bond authorizations. The bill was increased \$133,000,000 over the total as it passed the house. About \$327,000,000 was added during the last week because of the latest war estimates. The final re-draft will be presented to the senate as a bi-partisan measure Monday and probably called up for debate Wednesday. Senators La Follette, Gore and Thomas, plan for separate report advocating higher tax levies.

**List Additional Levies.**  
The new increase of \$327,000,000 over the committee's original draft is distributed approximately among the following additional levies:

On corporate incomes \$162,000,000.  
Additional surtaxes on individual incomes of \$15,000 and over, \$27,500,000.

Distilled spirits, \$95,000,000.  
Beer, \$12,500,000.  
Wines, \$17,000,000.

War excess profits, \$5,000,000.  
Bank checks, \$2,000,000.  
Stock taxes on sugar, coffee, tea and cocoa, \$6,000,000.

The additional levy on incomes of corporations applies also to partnerships, joint stock companies and associations, including life insurance companies. Their normal income tax is increased to 6 percent, four percent more than the present law and two percent above the original house and committee program.

The increased surtaxes fall entirely on individuals having incomes of \$15,000 or above. They range from one percent on \$15,000 incomes to a maximum of 33 percent on incomes in excess of \$500,000.

An additional \$1 per gallon tax is imposed on distilled spirits withdrawn from bond except those used for industrial purposes increasing the tax on distilled beverages to \$2.20 per gallon as compared with the present rate of \$1.10. The committee's prohibition on grain, molasses and other ingredients of whiskey to stop further manufacture also is retained.

**Would Double Beer Tax.**  
Beer would be taxed \$3 per barrel, double the present rate. Wines would bear virtually treble their present taxes. The house levy was only \$6,000,000 on wines.

The \$5,000,000 increase on war excess profits was added by minor changes in the schedule of such taxes providing for a total revenue of \$28,000,000. The \$2,000,000 additional from bank checks would make \$10,000,000 in all from that source. The committee originally planned to tax only checks of five dollars or more, but decided today to extend the one cent rate to all checks.

The new stock taxes on sugar, tea, coffee and cocoa, at the same rates proposed in the new consumption taxes, are levied only on wholesalers and retailers having large accumulated supplies.

## RUSSIA AND AUSTRIA NEAR AN UNDERSTANDING

LONDON, Aug. 3.—Camille Huysmans, the Belgian secretary of the International Socialist conferences in an interview today with a correspondent of the Dutch newspaper Handelsblad, declared that Russia and Austria-Hungary were on the verge of coming to an understanding according to a despatch from Copenhagen to the Exchange Telegraph company.

**Hard Words for Germany.**  
Copenhagen, Aug. 3.—The Vossische Zeitung under a Stockholm date, prints an interview given by Camille Huysmans, secretary of the International Socialist conference, containing hard words against Germany.

M. Huysmans is quoted as saying that the reichstag resolution remains a scrap of paper unless converted into deeds and declares that tangible results are not expected by the Socialist conference unless German Democracy musters courage to put an end to the military reactionary autocracy by democratizing parliament.

Austria and Russia are ready to come to an understanding, M. Huysmans declared, and the French government already has disclaimed "alleged annexation designs" by which the German government tried to make capital to check the peace current.

It depends solely upon Germany to show its good will, he says, or bear the entire responsibility for the fourth winter campaign.

## EXEMPTION CLAIMS IN BURLINGTON MANY

WASHINGTON, Ia., Aug. 3.—If the result of the examining of the first 279 men in Des Moines county for the draft army may be taken as an indicator, it will be necessary to summon several hundred additional men before the board in order to supply this country's quota of 293 men. This is considering that the majority of exemption claims may be allowed. Of the first 279 examined, 67 passed the physical test and has no claim for exemption, 140 additional passed but claimed exemption and 72 were declared physically disqualified.

## ROOT AND MISSION REACH PACIFIC COAST

A PACIFIC PORT, Aug. 3.—The American mission to Russia headed by Elihu Root, reached here tonight en route to Washington.

The mission will remain here over night, and will be entertained at a civic luncheon tomorrow. The mission has been away from the United States since May 19.

## HOUSE ADOPTS TWO CONFERENCE REPORTS

### Acts Finally On Food Control and Food Survey Bills

Measures Will Be Taken to the Senate Today but Probably Will Not Be Adopted Before Tuesday—Representative Kahn Urges Support of Wilson.

WASHINGTON, Aug. 3.—Conference reports on both the administration food control and food survey bills were adopted virtually without opposition today by the house. They will be taken in the senate tomorrow but probably not adopted before Tuesday. A vote was taken in the house against the long disputed conference on the control bill. On the survey measure the vote was 219 to 191. Amid applause from both sides, Representative Kahn of California, Republican, born in Germany, urged united support of President Wilson and endorsed the conference's action in eliminating the senate war expenditures committee amendment.

**Congratulate House Conference.**  
"I want to congratulate the house conference for knocking out the 'snapping' committee," said Mr. Kahn. "The duty of congress is to stand behind the president. He is the commander-in-chief of the army and navy. He will have to give an account of his stewardship later. Let us not hamper him now."

Contrary to expectations, neither the changes in the prohibition section nor the elimination of the war expenditures committee provision caused much discussion. Representative Barkley of Kentucky, one of the dry leaders declared his satisfaction with the revised prohibition section which would prohibit manufacture of distilled liquors and give the president power to commandeer liquor and to prohibit the making of beer and wines.

"If the war is to last two or three years," Mr. Barkley said, "the time will come when we shall have to put aside every luxury which will contribute to a shortage of the food supply."

## REVOLUTION BRINGS POLAND NEW LIFE

CHICAGO, Aug. 3.—The success of the Russian revolution is bringing Poland new life and guaranteeing freedom and independence to the Poles. Ambassador Boris A. Bakhtmetiev, chief of the Russian war mission declared here today in an address at the Kosciuszko monument in Humboldt park.

"Two events, the Russian revolution and the entrance of the United States into the war," he said, "have made clear the aims of the contest. It is the aim of the Democracies of the world to give independence and safety to all nations, based on the unquestionable right of each nation to define its own destinies."

A great gathering of Poles heard the address and cheered when the Russian ambassador laid a wreath on the monument.

The mission tomorrow will review the new national army parade.

## MAY JOIN FORCES TO REDUCE COAL PRICE

CHICAGO, Aug. 3.—The possibility that Indiana and Illinois would join forces to compel the coal operators to reduce prices became apparent here tonight when Governor J. P. Goodrich and Governor F. O. Lowden met and exchanged views over the coal situation. Neither would discuss the conference.

It was said, however, that similar conferences might be held with officials of other coal producing states and it is known that the Illinois council of defense has taken up the coal situation with similar organizations of neighboring states. It is not believed that any action on the coal question will be taken before the next meeting of the state council scheduled for next Tuesday.

## ARREST GENERAL GURKO

LONDON, Aug. 3.—General Gurko has been arrested according to Reuter's Petrograd correspondent.

The retirement of General Gurko was announced last May. It was stated he had been ordered dismissed because he objected to interference by the council of workmen's and soldier's delegates with the provisional government.

**WALTER KEIR DEAD.**  
Los Angeles, Cal., Aug. 3.—Walter Kerr, novelist and short story writer is dead here today. His body was found last night at the home of Mrs. J. E. Sullivan, 1301 Gerard street. A bottle which the police said had contained poison was found near the body. A note stated he took his life because of despondency over the inability to sell his stories because of the war. His wife and two children live in northern California and a brother, Judge Harry Kerr, in Paxton, Ill.

## CRITICISES WAR TAX BILL PROVISION

### Kitchin Charges Senate Body Wrote Intolerable Inequalities in Bill

### ACCEPTED AS WARNING

### Believe Statement Predicts Resistance When Bill Goes To Conference

### POINTS OUT CHANGES

WASHINGTON, Aug. 3.—Chairman Kitchin of the house ways and means committee declared in a statement tonight that "intolerable inequalities" in favor of the more prosperous have been written into the war tax bill by the senate finance committee. In re-writing the ways and means committee's measure," said Mr. Kitchin, the senators have taken a heavy load of taxation from the big business concerns and placed it upon the shoulders of the farmer, the small business man and others having modest incomes; have stricken by wholesale the house proposals for taxes on luxuries, substituting levies on necessities; have eliminated income tax schedules that would have taken needed millions from the incomes of the rich; and have added a grossly inequitable excess profits section which is impossible of administration.

**Accept Statement As Warning.**  
The statement of the house leader generally was accepted as a warning that, should the finance committee amendments prevail in the senate they will encounter a stubborn resistance once the measure gets to conference. The house bill championed by Mr. Kitchin was drawn at bi-partisan conferences of representatives, was supported during debate by both Democratic and Republican leaders and passed the house by virtually an unanimous vote. Among Mr. Kitchin's criticisms are that the finance committee struck out the Lenroot amendment increasing surtaxes on incomes of \$40,000 to \$1,000,000; repealed the munition manufacturers' tax relieving munition makers of more than \$25,000,000 a year; exempted all corporations from taxation for dividends received from other corporations, relieving the big corporations of more than \$50,000,000 taxes a year; and eliminated the additional house tax on the transfer of estates, relieving big estates and inheritances of \$6,000,000 the first year and \$38,000,000 or more yearly thereafter.

**Reduced Taxes On Tobacco.**  
The finance committee struck out entirely, said Mr. Kitchin, many millions of dollars of taxes which the house had imposed on the manufacture and sale of automobiles, tires, cigars, musical instruments, and numerous other luxuries and shifted over \$100,000,000 to the owners of automobiles and to necessities like sugar, coffee, tea and cocoa.

The finance committee reduced taxes on cigarettes, chewing and smoking tobacco and snuff about \$15,000,000 he pointed out and put that amount on coffee, tea and cocoa.

The senate plan to tax war excess profits on the basis of the increase shown in any corporation's profits over the average for a pre-war period of three years—the years 1911, 1912 and 1913—is declared by Mr. Kitchin to be manifestly unjust, making an undue discrimination in favor of the fortunate persons or corporations who were highly prosperous during the pre-war period. On that basis, he said, a corporation of \$10,000,000 capital making \$1,500,000 during the pre-war years and the same now would pay no excess profits tax, while a farmer worth \$2,000 making \$1,200 during the pre-war years and now making \$6,000 will pay over \$1,800 taxes.

"There are hundreds of corporations whose annual profits each year reach into the hundreds of thousands and millions," said Mr. Kitchin, "that will pay not a cent of excess profit tax under the finance committee's amendments, because being highly prosperous during the pre-war years they are making the same profits now and therefore have no excess. Under the finance committee amendments as to excess profits and incomes, the United States steel corporation with a billion and a half capital making over \$270,000,000 annual profits will pay not a cent of tax either on incomes or excess profits while the little farmer worth less than \$20,000 making a profit of \$6,000 will pay \$2,071."

**Cites Committee Amendments.**  
Mr. Kitchin cited senate committee amendments which he said would impose excess profit taxes on farmers, merchants, butchers and blacksmiths, but would exempt lawyers, doctors and others including employees and agents, receiving fixed amounts for their services.

"The classification employees and agents," he said, "would include officers of corporations like Gary of the United States corporation; Schwab of the Bethlehem steel corporation; and

Mr. Rodenberg recommended that investigation be made by a federal court thru a special grand jury empaneled for the purpose and he especially wanted Judge Landis to conduct it. The department of justice sent a representative to confer with Judge Landis but the latter took the view that it was questionable whether, as an infraction of state law, the riot was a proper subject of judicial inquiry.

Mr. Rodenberg contended that congressional action would have a tremendous moral effect on the situation.

Threats within the last few days to burn the \$10,000,000 plant of the American aluminum company of East St. Louis, from which comes the clay for the aluminum used in manufacture of airplanes and other purposes at the various plants of the company, were disclosed by Mr. Rodenberg. Explaining that there were only two companies of regular troops left in East St. Louis, Mr. Rodenberg said that the aluminum company's manager had received threats that as soon as the two companies were withdrawn the plant would be burned.

He said the city government had very little money and had only six policemen at the time of the riot out that manufacturers had raised a fund of \$105,000 to provide better police protection.

**Racial and Economical.**  
Mr. Rodenberg said the East St. Louis affair was both racial and economical but that there was not a scintilla of evidence to justify the charge that the negroes were imported into the city and colonized for political purposes.

Hallie Queen, a negro Red Cross worker, said that the Red Cross was willing to give important evidence as to names of mob leaders.

Senator Thompson of Kansas, chairman of the senate expenditures committee, said today that the committee would probably make a favorable report Monday of the resolution by Senator Sherman, for investigation by a congressional joint committee of the riots.

**ARREST RUSS NAVY OFFICER.**  
London, Aug. 3.—A despatch from Petrograd to Reuters Limited announced that the military authorities at Kiev have arrested Ensign Krylenko, a member of the Central Executive committee of the council of workmen's and soldiers' delegates, on a charge of circulating Maximalist propaganda in the eleventh army.

**DECLARE STATE OF SIEGE.**  
London, Aug. 3.—State of siege has been declared in the whole Greek department of Attica, including Athens and Piraeus, according to a despatch from Athens to the Exchange Telegraph company.

**REPORT LYNCHING NEAR BUTTE, MONT.**  
BUTTE, Mont., Aug. 4.—A report reached the police headquarters at one o'clock this morning (Saturday) that a lynching was in progress at the railroad trestle on the outskirts of the city where Frank H. Little, I. W. W. leader was lynched Wednesday morning. A squad of patrolmen hurried to the scene, but found no one. At 1:15 another report was received that the lynching party had not reached the trestle. A squad of patrolmen was hurried to the scene.

WASHINGTON, Aug. 3.—Federal investigation of the race riots in East St. Louis, Ill. on July 2 by the congressional joint committee, was urged before the house rules committee today by Representative Rodenberg of Illinois and Dyer of Missouri, and a delegation of negroes.

**Says Government Collapsed.**  
The plain unvarnished truth," said Mr. Rodenberg, "is that civil government in East St. Louis collapsed and the ferocity, brutality and viciousness of the mob that committed the outrages begs description. The police department joined the rioters and helped to shoot negroes. I am told the colonel in charge of the militia took no steps to handle the situation. A man in whose word I have confidence told me of a person who had been shot by a militiaman. Maurice Joyce, who, I think, will be the next federal judge of that district, told me that a negro started toward a group of eight militiamen for protection, that they pointed their bayonets at him and he fled back to the mob which shot and killed him and Joyce himself had a narrow escape from being shot."

## OFFICIALS TO MAKE FEW EXEMPTION REQUESTS

### Postoffice Department Issues Ruling to Postmasters

First Formal Action by an Executive Department in Compliance with President's Order—Mail Carriers Force Excluded from Exemption.

WASHINGTON, Aug. 3.—A ruling issued today by the postoffice department shows that department officials will make a few requests for the exemption of postal employees from military service. Postmasters are instructed not to ask for exemption for carriers or laborers or for clerks in the second class offices below the \$1,000 grades, clerks in first class offices below the \$1,100 grade or any above these grades unless they are qualified distributors of mail.

**First Formal Action.**  
The ruling is the first formal action by an executive department in compliance with President Wilson's order directing that department of orders indicate exemptions and that the requirement of indispensability be rigidly enforced.

The entire mail carriers force numbering thousands of men of whom a considerable percentage are within the draft age limits is excluded from exemption except for physical reasons or because of dependent families. Rural carriers are included.

The department's ruling in regard to the clerks leaves railway mail clerks within the exemption classes, as they are highly specialized distributors.

Provost Marshal General Crowder took steps today to reduce the number of exemptions because of dependent families. Instructions were wired to the governors of all states pointing out that the minimum pay of soldiers is now \$30 a month and that local boards must consider whether a man's dependents could not be supported on that amount. The telegram says that many soldiers will be easily able to allot twenty dollars monthly to support of dependents and that in case of death in line of duty the government will pay to the beneficiary designated by the soldier six months pay.

**Crowder Suggests Conference.**  
General Crowder has suggested to the governors that each assemble the full membership of all district boards in his state for a general conference to insure uniform procedure regarding appeals. The governors were asked who to appoint an official in each local district to file appeals.

County attorneys were suggested.

**Absolute Proof Necessary.**  
Des Moines, Iowa, Aug. 3.—Absolute proof that his wife and family is solely dependent for support will be necessary for claimants to gain exemption from the draft, Iowa supreme exemption boards decided today. Claims for provisions for occupational or agricultural release will be investigated minutely. The boards will hold first meetings next week. The southern board meeting will be held at the state house here and northern meeting at Waterloo.

**CLOSING PROGRAM AT KALAMAZOO MEET**  
KALAMAZOO, Mich., Aug. 3.—The free for all pace failed to develop the expected sensation in today's Grand Circuit program Single G—winning easily by his well known ability to speed up in the stretch. The 2:07 trot was the only real contest of the day, Grand Chimes, the favorite winning after Miss Perfection had made a strong bid by taking the second and third heats thru strong finishes in the stretch. HONORS FOR COMPANY B.

Ladies of State Street church have planned graciously in the summer for members of Co. B, announced for Tuesday evening. Not all the members of the company are here but those who have the privilege of being the guests of the State Street women can be assured in advance that nothing will be lacking from the menu. It is practically certain that these soldiers will be on French soil not many months hence doing their part for their country and particularly representing this city and county. Not enough of public attention has been given these soldiers who are daily going thru a rigorous course of drilling, and in the dinner which has been planned for Tuesday night an excellent example is furnished.

A GOOD EXCHANGE.

The food embargo has had a good effect on Norway and that country is now willing to barter ships for food stuffs. She will give a million tons of shipping in exchange for fats, sugar and grain. The head of the Norwegian mission to the U. S. declares emphatically that the needs of his country are actual and that definite assurance will be given that none of any supplies will find their way to Germany. If he can give the further assurance that these supplies are not desired to take the place of shipments of Norway's own products to Germany, the offer to trade shipping has its advantages. What the U. S. needs most of all, according to the experts, is more ships and a great air fleet. The latter cannot be bartered for because the desired air craft are not in existence. All the vessels needed are not afloat, but the greater the number of vessels already built that the U. S. can secure the less will be the task that confronts Admiral Capps and the shipping board.

STOCKS INCREASE EXPECTED.

Numerous financial writers are predicting that there will soon be increase in the price of stocks. Most of these prophecies are predicted on the fact that the government will expend during the first year of the war an average of more than forty millions per day. This huge sum will be the United States' own cost and for the aid of the allies. A certain amount of inflation, the finan-

cial experts say, will be certain to result from this expended credit and stocks are expected to be the chief beneficiaries. Another reason which might be given for expected increase is the fact that an early understanding is expected as to what the government will do about excess profit taxes and there will be an understanding also of the government's plan on all war revenue measures. Those most familiar with the stock market and financial conditions declare that it is the uncertainty of the past two or three months with reference to the government's intentions that has tended to hold down prices of stocks. As frequently mentioned in other days, there is nothing so disturbing as uncertainty, and even those who are not well posted on such matters have the feeling that increases will come as soon as the government taxing program has been made thoroly clear.

THE FINANCIERS CAN HELP.

It is not so long ago that we heard a great deal of discussion about "after the war"—what the social and business conditions would be. Now we hear very little discussion of these subjects. People generally seem to have settled down to the idea that this will be a long and serious conflict. Regardless of this situation, the past days have brought forth many telegraphic stories of peace movements and rumors. Only one of these at present has the appearance of carrying much force and not a great deal of publicity was given to this particular peace idea. Reference is made to reported conference of international financiers held in Switzerland, where it is alleged that a plan was agreed upon for an endeavor to bring about peace in order to prevent the spread of socialism and revolution. Such a conference and agreement may not have been held. The fact remains however, that war cannot be prosecuted without money and when the time comes that resources have failed or the ability to borrow have been exhausted, the war will certainly come to an end. So it is patent that the great financiers of the world have much to do with the length of the day is not far distant when they will let that influence be felt for stemming the war's tide.

SUBMARINE WARFARE NOT UP TO GERMAN EXPECTATION.

The best proof that Germany's submarine warfare, altho causing great losses, has failed, in its purpose, is seen in the records of the U. S. foreign trade during the fiscal year 1917. The figures have greatly exceeded all those of former years, according to a statement just issued by the foreign and domestic committee of the department of commerce.

In round numbers imports amounted to 2,655 million, and exports to 6,294 million dollars for merchandise only, thus showing an excess of exports or favorable balance of trade of 3,635 million dollars, with a total of foreign trade of 8,953 million dollars.

Imports in 1917 show an increase of 451 million dollars over 1916, 985 million over 1915 and 765 million over 1914—the last normal year before the war. Exports in 1917 were larger by 1,916 million dollars than in 1916, 3,525 million more than in 1915, and 3,929 million dollars over the 1914 figures. The gain in the balance of trade in 1917 over previous years amounted to 1,499 million dollars over 1916, 2,510 million dollars over 1915, and 3,164 million dollars over 1914, with increases in the total foreign trade of 2,422 million dollars over 1916, 4,511 million over 1915 and 4,695 million dollars over 1914.

For the single month of June, 1917, the total imports were 307 million dollars, of which 218 million dollars, or 71 percent, were entered free of duty. The total during this month exceeds by 36 million dollars the imports of the previous month of May which up to that time were the highest in any one month. Exports of merchandise during June amounted to 576 million dollars, the highest in any month with the exception of January, 1917, which shows exports valued at 613 million dollars.

AMERICAN EFFICIENCY.

German efficiency has been held up as a degree of excellence unattainable by a Democracy. The accomplishments of the United States since April 5th last refute the truth of the claim. In the short space of time since that day the United States has accomplished the following:

Declared a state of war as existing between this country and Germany.

Seized 91 German ships and begun repair work on them;  
Authorized unanimously a war fund of \$7,000,000,000;  
Appropriated \$600,000,000 for merchant shipping and as much for air fleets;

Agreed to loan our Allies \$3,000,000,000 and advanced them a large proportion of that sum;  
Passed a selective draft law and in a single day registered nearly ten million men for military service;  
Enlisted 600,000 volunteer soldiers in the Regular Army and in the National Guard of the States;

Sent a Commission to Russia to aid Democracy there and a body of railroad men to Russia and another to France to advise and assist in railroad transportation in those countries;

Began the construction of 32 camps for our soldiers;

Sent to England a fleet of destroyers and to France a detachment of troops;  
Authorized and now enforcing embargo whereby our enemies will receive no more food or material from us;

Passed a food conservation law, Organized many voluntary commissions and boards who are aiding the government and the people in the speeding up of work, conservation of food, and other national movements;

Drafted by lot 687,000 men for military service;

While the Government was accomplishing these things the American people have loaned the United States \$2,000,000,000 and offered \$1,000,000,000 more, over four million citizens subscribe to the loan.  
In addition they have given over \$100,000,000 to the American Red Cross and \$3,000,000 to the Young Men's Christian Association.

All these things were accomplished while our soil was not invaded or even threatened with invasion and without any disturbance of business conditions. All was done with the calm determination and judgment of an earnest, patriotic people performing a service for civilization and mankind and maintaining the rights, the dignity, and the honor of the greatest nation in the world.

The German leaders derided America's entry into the war as a bluff. This is our answer.  
The German Imperial Government was nearly fifty years in perfecting its military efficiency. In less than four months the American Republic has made such strides as to indicate that in less than two years' time the boasted superiority of German efficiency will have been discredited. There is such a thing as American efficiency, and time will prove that German efficiency can not withstand it, fighting as it is for liberty, justice and humanity.

Rippling Rhymes

Lost Youth  
"If I were only young once more, how I would wade in Prussian gore! If I were only twenty-three, or thirty, as I used to be, how I would wield my flashing sword, and paralyze the German horde! If I were not of falling sight, and if my whiskers were not white, and if I had no housemaid's knee, how eagerly I'd cross the sea, with my large double-action lance, and drive invaders out of France! Thus every day I hear old men bewail their age, and weep again. Cheer up, oh, venerable jays! You still may help, in forty ways. The rolls of cash we see you hoard may do more service than the sword. Great whiskers! how your faces fall, when talking to that sort of call! 'Our lifeblood we would freely lose, until it rose above your shoes,' you grand old fellows seem to say: 'we'd bleed and die day after day, but when you'd touch our pocketbooks, that is another thing, gadzooks!' Oh, how the children must admire the grownups flitted with martial fire, who tell all day what they would do if they were twenty-one or two, and who shrink up and fade away if asked to help Y. M. C. A., or any worthy army cause—these heroes battling with their jaws!

August 4, 1838—Stephen A. Douglas delivered in Chicago his maiden speech in his first campaign for a seat in Congress.

EXEMPTION BOARD NOTIFIED OF ENLISTMENTS

The arrangements for the medical examination of Morgan county registered men have been practically completed. This work is to begin Monday morning at 9 o'clock in Armory hall, when 80 of the registered men have been summoned to appear. As the department has cognizance that men registered here have already enlisted in some branch of the service, notices are sent to the local exemption board. Enlistment by these young men takes them from the jurisdiction of the exemption board. Miller Weir, chairman of the board, stated yesterday that the board had received notice from Chicago of the enlistment of Edward Bullard in the ordnance reserve corps. A like notice was sent from Jefferson I tracks concerning Chril Bridges, of Waverly, who has enlisted in the infantry branch of the service.

TRACK MURDERER WITH AIRPLANES

London, July.—For the first time in this country the police used airplanes here the other day in an effort to track the murderer of a girl found half-buried in a wood near London. Three machines were used to patrol sparsely populated districts.

GERMANY HAD AUSTRIA'S ULTIMATUM TO SERBIA

Possessed Document Before It was Delivered At Belgium

Positive Information Reaches Officials in Washington—Refutes Germany's Claims That she Was Not Consulted by Austria as to the Ultimatum.

Washington Aug. 3.—Germany had possession of Austria's ultimatum to Serbia fourteen hours before it reached officials here and which was made public today for the first time.

It was stated that former Foreign Secretary Zimmermann admitted this himself when pressed very closely as to Germany's fore-knowledge of the action of her ally which precipitated the European war.

Germany has maintained constantly in all her public documents that she was not consulted by Austria as to the ultimatum which practically denied Serbia's independence and that she did not even have knowledge of the step.

Foreign Secretary Zimmermann's admission, however, is interpreted here to show that Germany had full knowledge of the note in time to stop action on it if she felt it essential.

Information given credence by officials here is that a conference at Potsdam did take place and was attended by Moltke, Falkenhayen, Tirpitz, Bethmann-Hollweg, the crown prince and Emperor William.

After the emperor left for a short trip and on his return found Sir Edward Grey's offer of mediation. He was disposed to accept this, but Moltke, Falkenhayen and Tirpitz threw their swords down on the table and offered their resignations. William thereupon decided to refuse the offer.

SPRAY FOR LEAF-SPOT OF TOMATOES

Resin Fish-Oil Soap Added to Bordeaux Mixture Promises a Method of Control.

Washington, D. C., Aug. 3.—The addition of resin fish-oil soap to Bordeaux mixture promises to control tomato leaf-spot, although Bordeaux alone has not prevented losses.

Plant-disease specialists in the Federal department of Agriculture describe the leaf-spot disease as one which causes defoliation of the plants, greatly reduced yields, and inferior fruit. Small circular spots develop on the leaves and sometimes on the stems. They first appear as tiny dots, having a dark or water-soaked appearance. Gradually they enlarge and turn brown, and the leaves shrivel and drop, beginning at the base of the plant.

Making the Solutions  
Bordeaux mixture is best prepared by making stock solutions of the separate ingredients. The copper sulphate should be mixed in the proportions of a gallon of water, preferably soft water, to a pound of the sulphate crystals and there should be five gallons of this stock solution for each acre of tomatoes to be sprayed. The crystals should be dissolved in the usual way by suspending them in a burlap bag which touches the surface of the water; the solution should be well stirred.

The lime suspension or milk of lime, is also a pound to a gallon, but only three-fourths as many balloons are needed as of the copper solution. Thus, if there are twenty gallons of the copper solution there would be only fifteen of the lime milk. The lime should be slaked gradually by pouring the water on in small quantities and at intervals until all has crumbled. Finally larger quantities are added with constant stirring until the volume is completed. If quicklime is available use as many pounds of the latter as of copper sulphate, but do not increase the quantity of water. Air-slaked lime must not be used.

The resin fish-oil soap suspension is made with a pound of soap to a gallon of water. As with the lime, only three-fourths of the quantity of water is necessary. Hot water will hasten the dissolving of the soap. To avoid the formation of troublesome lumps the water must be added slowly at first with constant stirring.

Preparing the Mixture  
For general commercial operations 20 50-gallon barrels with outlets at the bottom are placed on a raised platform so their outlets will be higher than the top of the spray tank. To make 100 gallons of mixture eight gallons of the copper-sulphate solution into one barrel and six gallons of the milk of lime into the other. Add to each enough water to make forty-seven gallons, stirring the contents thoroughly, and then let the two solutions run with equal rates into a trough leading to the spray tank. At the same time add six gallons of the resin fish-oil solution strainer along with the copper-lime mixture. The copper sulphate and lime should be mixed before the soap is added.

Modifications of the method may be used for smaller quantities.  
Applying the Spray.  
A traction sprayer such as that employed in the spraying of potatoes may be used except where the vines are too large. There should be three nozzles for each row, one to spray downward and two on the sides spraying toward each other. These lateral nozzles should be set low and pointed slightly up to get the spray on the under side of the leaves. Thorough spraying, repeated at from seven to ten day intervals, is necessary for the best results, and must be continued through August. When the plants are too large for a traction sprayer in the rows, roadways should be opened and the spraying continued with long lines of hose.

FORMER GREEN COUNTY YOUNG PEOPLE MARRIED

Weimer-Severling Nuptials Solemnized in California—White Hall Boy Scouts Have Picnic.

White Hall, Aug. 4.—W. S. Corsa is looking after ranch interests in Nebraska.

Attorney W. L. Winn was in Murrayville Thursday.  
Mr. and Mrs. Guy Lowenstein and son Louis leave for Riverview Lodge, Lake Matanzas, Monday, accompanied by Mr. and Mrs. G. R. Adams, Miss Kate Ellis, Mr. and Mrs. Glenn Waddell, and the party will later be joined by Mr. and Mrs. Emil Schram, the former being manager of the Hartwell ranch at Hillview.

The marriage of Karl K. Weimer, formerly of Carrollton, and Miss Hazel Severling, formerly of White Hall, occurred at Hill Valley, Calif., Saturday. The groom has a position in the pay receiving station of the U. S. navy on Goat Island, San Francisco, Calif. The bride is a daughter of the late Geo. B. Severling. She has been touring the west with a concert company for the past two years.

Dean Corsa was in Springfield Friday to confer with army officers with reference to his call to service in the engineering corps.

Word from Rock Island is to the effect that Dee Robinson was recently married to a young lady of that city. He has been employed in a foundry there for several months. He is the son of Mr. and Mrs. J. R. Robinson of White Hall.

Boy Scouts Picnic.  
Representatives of Boy Scout troops from the Methodist, Baptist and Christian Sunday schools gathered in the Ross woods, south of the city reservoir, Thursday afternoon, with camping equipment and all the necessities for supper and breakfast, and there the night was spent very pleasantly and inspiringly under the tutelage of Rev. Hugh Davidson, chief scoutmaster and pastor of the Christian church, and the Rev. Leo Howard, pastor of the Methodist church. There were nineteen in the party. The proceedings combined instruction and pleasure very profitably, and the call for the next encampment will doubtless meet with a great outpouring from among the ranks of the local Boy Scouts, who are numerous. The movement also embraces the Presbyterian Sunday school, and the absence of the Presbyterian pastor, Rev. A. F. Ewart, and the Baptist pastor, Rev. John A. Simpson, caused a curtailment of the attendance at this initial encampment.

Mrs. Minnie Pierce left today for Hammond, Ind., for a visit with her son, Ralph C. Pierce, and family. Ralph being identified with the management of the Hammond Daily Times.  
R. B. Pearce, cooperative observer of the weather bureau for this section, reports precipitation for the month of July to be 2.20 inches. There were eighteen clear days, eight partly cloudy and five cloudy days. The mean maximum temperature was 89.7 degrees, mean minimum 62 degrees. The highest reading was 100 degrees on the 31st, and the lowest 51 on the 4th.

Harold Talley, aged 8 years, son of J. Wes Talley, is threatened with typhoid fever.

Mrs. L. L. Seely left Friday for Colorado Springs, being accompanied by Mrs. Clyde Linder of Carrollton and Mrs. Ralph Linder of Kane. They will spend several weeks in Colorado.

SENATOR ORDERS PROBE.

Washington August 3.—A denunciation by Representative Hefflin of Alabama, of Representatives Mason and Britton, of Illinois, for their attitude toward conscription became so personal in the house today that Mr. Hefflin's words were expunged from the record. Both the members attacked were absent but their friends protested warmly and the expunging motion was carried 190 to 122.

Salt Lake City, Utah, Aug. 3.—With a deep bayonet wound in his back, received when he resisted National Guardsmen who arrested him, Gustaf L. W. Longfars, an admitted Industrial Worker of the World, is in the Salt Lake county jail. His arrest was affected at Bingham, after, it is alleged, he had been ordered by the government and damned the United States flatly.

TWO AMERICANS WOUNDED

American Training Camp in France, Aug. 3.—An American interpreter and a lieutenant were slightly wounded and a French instructor was bruised when a live grenade fell near a box of grenades during practice.

EIGHT GUNNERS LOST

London Aug. 3.—Eight naval gunners were lost when the American tank steamer Motano was sunk by a submarine. Sixteen members of the crew also perished.

CONFERENCE REPORT ON RIVERS AND HARBORS BILL

Washington, Aug. 3.—The conference report on the \$27,000,000 rivers and harbors bill was accepted today by the house. It now goes to the president.

SHIPPING COMPANIES PROSPER

Tokio, July.—Japan's largest steamship company, has declared a dividend for the half year at the rate of 70 per cent a year. This income, hitherto unapproached in the shipping business, is the direct result of the war and the demand for cargo space on Japanese steamers.

REFUSES TO RECOGNIZE FINNISH INDEPENDENCE

PETROGRAD, Aug. 3.—The provisional government has refused to acknowledge Finland's independence law and has instead issued a manifesto dissolving the Landtag and appointing a general election of October 1, declaring that the government when the Landtag meets, will submit its own law regulating Russo-Finnish relations.

The manifesto, which is signed by all ten ministers, expounds the provisional government's contention that Finland enjoys independence only within the limits defined by her constitution. The essential factor of which is the position of the emperor and Grand Duke, which has now passed to the provisional government. The independence law, the manifesto says, not being submitted for the sanction of the provisional government as the authority invested with the former grand duke's right of sanction, is unconstitutional and further declares that the government cannot recognize the Finnish landtag's rights arbitrarily to seize the freedom of will of coming constituent assembly.

E. J. ALEXANDER TO TAKE NAVY POSITION

Mention was made sometime since of the application of Edward J. Alexander for a position in the U. S. navy. Mr. Alexander Thursday received from Washington his commission as an assistant paymaster. He was instructed to report at once at Washington to the bureau of accounts and supplies, and accordingly left Thursday night for the national capital. At the navy yard he will take a six weeks' course of training and is expecting immediately thereafter to be assigned to duty abroad. In accordance with instructions received Mr. Alexander took the oath of allegiance in Jacksonville before starting on his trip to Washington. For some time past Mr. Alexander has been serving with acceptance on the Courier staff his going adds

another to the long list of Illinois college graduates or students who have entered the service of their country.

## MORTUARY

**Buckheit.**  
Regarding the death of Harry Buckheit mentioned in Thursday's paper, further word has been received. He died of abscess of the brain, having only been ill since Saturday. Funeral services were held August 2nd at 4 p. m. at Chicago, in charge of Rev. Hunter of Jackson Blvd. Christian Church where young Mr. Buckheit attended since his removal to Chicago. Burial was in Mt. Auburn cemetery.

Harry Buckheit was a senior in the McKinley high school and would have graduated in February. His parents and sister are heart broken over his sudden death and a large number of friends will mourn his loss keenly. He leaves a host of friends in this city as well as in Chicago. He was a bright boy and loved by all.

## WERE MARRIED

## MANY YEARS AGO

Mr. and Mrs. W. S. Hudson of Ashland Celebrated 63rd Wedding Anniversary.

Friday was the 63rd wedding anniversary of Mr. and Mrs. W. S. Hudson of Ashland and the couple celebrated the event quietly at their home in that city. No special plans were made for the day but many old friends called to extend congratulations.

Mr. and Mrs. Hudson were united in marriage August 3, 1854 at the home of the bride's grandparents, Mr. and Mrs. Goodpasture of Concord. At that time the bride was 16 years of age and the groom 27 years old.

They moved to Astoria from Concord thirty-four years ago where four children were born. Mrs. Sadie O'Neil and Mrs. Maggie Scott of Ashland and Ben and Charles Hudson of Cantrall. They also have fourteen grandchildren and sixteen great grandchildren.

They are highly esteemed in the community in which they live and have many friends who hope they will be spared to celebrate many more anniversaries.

**Trip to Park.**  
Thursday afternoon Mr. and Mrs. Lee Doane and daughter Caroline tendered some little friends a ride to Nichols park and a picnic. The occasion was greatly enjoyed by the little folks who occupied the playground apparatus a while, watched the monkeys, played tennis and enjoyed themselves in various ways. A bountiful supper was an important feature of the occasion and not until the moon rose did the pleasure seekers turn their steps homeward. The guests were Misses Frances Hearne, Lois Harney, Helen Harney and Ruth Rayhill, the latter from Springfield, daughter of J. H. Rayhill, Jr.

## Mr. and Mrs. Herald

**Give Evening Party.**  
Mr. and Mrs. Edwin D. Herald, 1006 Edge Hill road, entertained Friday evening the post office clerks and officials with their wives and friends, honoring Carl S. Richards who was recently elected president of the Illinois Association of Post Office Clerks. The event was a lawn party and especially the evening proved a delightful success, a short program adding to the pleasure of the guests. Instrumental numbers were given by John Kearns and Mrs. Herald. Mrs. Thomas Harber gave a vocal solo and Master Norman York was heard in a reading.

Refreshments of pleasing quality were served and then the company gave attention to a program of toasts. Ralph I. Dunlap, the post master, J. J. Reeve, former post master, made addresses as did Mr. Richards and T. B. Reeve. J. H. Richards, president of the Jacksonville Association of Post Office Clerks, served as toastmaster. The evening hours passed by all too swiftly and all who were present will recall the event as a time of unusual enjoyment.

## All Traces of Scrofula Eradicated from the System

By the greatest of all purifiers.

A common mistake in the treatment of scrofula has been the use of mercury and other mineral mixtures, the effect of which is to bottle up the impurities in the blood, and hide them from the surface.

The impurities and dangers are only added to in this way.

For more than fifty years S. S. S. has been the one recognized reliable blood remedy that has been used

with highly satisfactory results for Scrofula. Being made of the roots and herbs of the forest, it is guaranteed purely vegetable, and absolutely free from all mineral ingredients.

You can obtain S. S. S. from any druggist. Our chief medical adviser is an expert on all blood disorders, and will cheerfully give you full advice as to the treatment of your own case. Address Swift Specific Co., Dept. F Atlanta, Ga.

## CRITICISES WAR TAX BILL PROVISION

(Continued from Page 1.)

Morgan of J. P. Morgan & Co., and DuPont of the powder company.

The excess profits tax is entirely unworkable, Mr. Kitchen charges, because it requires "in ninety-nine cases out of a hundred a physical valuation of all the assets of each taxable individual, partnership or corporation," not only in the year when the tax is collected, but for each of the three years of the pre-war period.

Many big business concerns which for years have been at the feet of congress praying for favoritism at last have had their prayer granted by the finance committee, the house leader declared.

The senate provision exempting from income taxation all corporation dividends received from other corporations repeatedly has been sought he says, by concerns like United States steel, Bethlehem steel, American tobacco and the DuPonts. United States steel alone he calculated, will benefit by the committee's action in this respect to the extent of \$10,000,000.

Relief prayed for since 1913 by the railroads was granted by the senators, Mr. Kitchen declared when they provided that the railroads need not pay direct to the government a tax on the income from their bonds which in the bonds themselves they have contracted with the purchaser to pay.

A plea by the United States Cigar Stores company for favoritism, denied by the ways and means committee, was granted by the senate committee, Mr. Kitchen charged in adjusting exemption under the tobacco tax. Under the senate provision, he declares, a tobacco dealer with a capital of one or two thousand dollars and barely making his living will get an exemption of only one hundred pounds of tobacco, 500 cigars and 1,000 cigarettes, while the United company with thirty millions capital will have exemptions totalling 100,000 pounds of tobacco, 500,000 cigars and 1,000,000 cigarettes.

This will be the last day the Scholl Foot Expert is to be at our store. Many are being relieved. Bring your troublesome feet in. Free consultation and advice.

## CHARGES GERMANS DROWNED SAILORS

A BRITISH PORT, Aug. 3.—Thirty eight members of the crew of the Steamship Belgian Prince were drowned in a most deliberate manner by the German submarine which sank here, according to the account given by survivors of that British vessel who have reached British shores. The chief engineer of the steamer gave the following narrative:

"About 8 o'clock on Tuesday evening when we were 200 miles off land, I saw the wake of an approaching torpedo. The vessel listed heavily when the torpedo hit her and all of us took to the boats.

"The submarine approached and shelled the vessel and then ordered the small boats alongside the submarine. The skipper was summoned and taken inside. The others were mustered on the deck of the submarine.

"The Germans removed the life belts and the outer clothing of all except eight of us, smashed the life boats with axes and then re-entered the submarine and closed the hatches, leaving us on deck. The submarine went about two miles and then submerged.

"I had a life belt. Near me was an apprentice boy of sixteen shouting for help. I held him up until midnight but he died of exposure. At daylight I saw the Belgian Prince afloat. I was picked up after eleven hours in the water by a patrol boat."

The second engineer reached the Belgian Prince before she blew up. The Germans came on board and looted her, he reported. He was in hiding but finally jumped into the sea and kept afloat on the wreck.

The only other known survivor is too ill to tell his story.

## INVESTIGATION TO BEGIN MONDAY

AUSTIN, Texas, Aug. 3.—The second investigation into the omicral acts of James E. Ferguson, of determine whether impeachment charges shall be presented against him will be begun next Monday. This was determined today by the house of representatives. Except that the entire house instead of a small committee will participate in the proceedings to be initiated Monday the investigation will have much the same flavor as the one that severely criticised and exonerated the governor in March. If the house sustains the charges by a majority vote the next step will be the presentment of a bill of impeachment to the senate which would then conduct a trial. Impeachment could only follow a two thirds vote of conviction by the senate.

OFFERS TO INTERVENE IN STREET CAR STRIKE

SPRINGFIELD, Ill., Aug. 3.—Barney Cohen, director of the state department of labor, late today offered to intervene in the street car strike which promises to continue until the union formed by the strikers has been recognized by the car company. Both sides to the controversy were considering the offer tonight.

A. D. Mackie, general manager of the car company last night agreed to meet a committee of "old employees" as such, but not as representatives of the union. The proposal was rejected by the strikers today.

Cars are being run until 6:30 p. m. every day. There have been no disturbances for a week.

DIVORCED WIFE KILLS FORMER U. S. MINISTER

UPON THE NEW CLUES.

Butte, Mont., Aug. 3.—No new clues were unearthed today in the effort to apprehend the armed men who lynched Frank Little, the I. W. W. leader early Wednesday. The remains of the victim will be shipped Sunday evening to Yale, Okla., where they will be interred. Six thousand miners, it is estimated will follow the casket to the depot. An inquest over the remains of Little was begun here today.

GOVERNOR DECLINES REQUEST.

Phoenix, Ariz., Aug. 3.—Governor Campbell declined today a request by two of the deported Bisbee miners and Fred H. Moore of Los Angeles, attorney for the I. W. W. to recommend to the president the declaration of martial law at Bisbee and the sending of federal troops there. The governor said he had not yet exhausted the means at his command to settle the trouble.

AMERICAN SHIP FIGHTS SUBMARINE

An Atlantic Port, Aug. 3.—An American tank steamship loaded with gasoline was engaged in a running fight with a German submarine on July 10 when near the French coast and escaped destruction by superior speed after a torpedo had been launched and 21 shots had been fired from the U-boat's deck gun, according to officers of the vessel on arrival here today.

U-BOAT TO REMAIN INTERNED

Amsterdam, Aug. 3.—A semi-official statement received here from Berlin says that the German submarine U. B-6 will remain interned in Holland and the U. B-30 stranded on a Dutch Island last February. There are no available records concerning the U. B-6.

CONFIRMS REPORT OF RUSS IMPROVEMENT

LONDON, Aug. 3.—The Times correspondent at Russian headquarters on the southwest front, under date of July 31, confirms reports of improvement in morale in the Russian army as a consequence of measures against desertions and panics. The correspondent says that disaffected Russian regiments have returned to the front.

SOLDIERS RECEIVE MAIL REGULARLY

WASHINGTON, Aug. 3.—American soldiers at the front now are receiving their mail without interruption as a result of the establishment of the United States postal agency in France, Postmaster-General Burleson announced today.

EXPERIENCED WORKERS UNDER THE DIRECTION OF MARCUS H. BUNN ARE HANDLING MAIL MATTER AT THE BASE POST OFFICE AND AT BRANCHES ESTABLISHED AT PARIS, THE TRAINING CAMPS, AND AT THE AMERICAN PORT OF DESEMBARKATION.

At present all letters sent to or received from soldiers must bear the regular domestic rate of postage.

STOP FORAGING EXCURSIONS.

Copenhagen, Aug. 3.—The favorite sport for hungry Berliners of foraging excursions to adjacent rural regions, according to German newspapers received here, has been stopped by the military authorities, who have made the purchase or sale of eatables under such conditions a crime punishable under martial law. Gardemars have been instructed to confiscate all foodstuffs captured in transit.

## BANDS ORGANIZE TO DEFEAT DRAFT

(Continued from Page 1)

sheriff and his deputies left that city tonight for Wewoka, to give battle to draft rioters. The responsibility of keeping peace in Sapulpa was placed in the hands of a "home guard organization" of about 65 business men.

To Give Battle To Resistors

Ada, Okla., Aug. 3.—Two thousand or more citizens met here in mass meeting tonight to perfect an organization to give battle to the draft violators in Pontotoc county.

A committee of fourteen was appointed to act with the authorities. The plans decided upon will be known only to the officers. Three hundred rioters are reported hiding in a well-fortified rendezvous near Konowa.

The bands are organized into several bodies, the strongest of which is known as the "working class union."

Its membership is said to number about 300. This organization is said to be supplemented in its work of destruction by I. W. W. agitators and a smaller group known as the "Jones family."

Seminole county seems to be the heart of the chaos-ridden region, where trouble has been brewing since the passage of the draft law. Many tenant farmers of the county have turned their stock into growing fields and killed some of the cattle for food. Sheriff Grall and Deputy Sheriff Cross were fired on from ambush late yesterday while conducting an examination. Cross suffered slight wounds.

Railroad Bridge Damaged.

The railroad bridge crossing the south Canadian river between Francis and Ada, was partially damaged either by dynamite or fire early today and all wire communication into Francis cut off.

Almost at the same time an attempt was made to dynamite the Missouri Pacific trestle which bridges the Illinois river near Gore, Oklahoma, altho this bridge was guarded. It was not materially damaged, however. Four suspects have been arrested and are in jail at Sallisaw.

Gore is at least one hundred miles from Seminole county and whether the dynamiting was the work of a separate organization or a demonstration of the scope of the Oklahoma disorders was not determined tonight.

Twenty armed civilians were sent to Holdenville and Wewoka tonight by Adjutant General Earp following appeals from the sheriffs in these places who fear trouble for draft resistors. Guardsmen would be used only as a last resort the adjutant general said.

100 Armed Men on Way.

Muskogee, Okla., Aug. 3.—One hundred armed men left Okmulgee on a special train tonight for the scene of the anti-draft riots. The call for men came from Muskogee and enough volunteers were secured in ten minutes.

Men's shirts in a great variety of patterns popularly priced. Knoles.

WANT MORE PHYSICIANS TO EXAMINE DRAFT MEN

SPRINGFIELD, Ill., Aug. 3.—Urgent requests on Governor Lowden for more physicians to aid in examining men called up for service in the national army led the governor today to ask Dr. C. St. Clair Drake, director of the department of health to prepare another list of medical men acceptable for the task. This is in addition to the more than a thousand approved and assigned early this week.

"Before we get thru with it at least twenty percent of the physicians of Illinois will be engaged in examining men for the national army," Dr. Drake said.

Adjutant General Dickson today sent telegrams to all exemption boards warning them against calling in physicians to aid unless approved by Governor Lowden.

WELCOMES CABLE FROM GOMERS

LONDON, Aug. 3.—The cable message from Samuel Gompers, head of the American Federation of Labor, to M. Jouhaux of the General Federation of Labor and W. A. Appleton, of the General Federation of Trade Unions, refusing to participate in the International Socialist Conference, is welcomed by the Post. In an editorial the Post describes Mr. Gompers message as admirable in sense and delivered with admirable emphasis, adding: "Once again the Allies have to thank America for timely lead. \* \* \* While our ministers haven't the courage to act on their convictions Gompers has. \* \* \* Assuredly an international conference without America would be too feeble to justify any further cringing by Ramsay MacDonald and his confederates."

## COMMANDER VESSELS UNDER CONSTRUCTION

Immediate Action Decided on by Shipping Board—700 Ships are Under Construction

Washington, Aug. 3.—Immediate commandeering of most of the vessels under construction in American ship building plants was decided on today by the shipping board. The step is preliminary to the requisitioning of American tonnage already on the seas and will be taken to speed construction so that the yards may be cleared for building ships for which the government has let contracts. There are building in the yards of the country about 700 ships totalling more than 1,500,000 in tonnage, most of it for foreign account. Hulls and contracts will be taken over the final disposition of the foreign craft to be left to governmental negotiations. The completed American ships will be retained by the board for operation.

## COUNSELS GERMANS TO AVOID NERVOUSNESS

COPENHAGEN, Aug. 3.—According to a published account of conversations in Dresden, Chancellor Michaelis said that while he was ready to accept any opportunity given him to secure an honorable peace the requirements of the hour for negotiations of nervousness and prove to their opponents that Germany's weight was unweakened Germany's opponents, Dr. Michaelis said, had been greatly encouraged by the exhibition of nerves in the latest inner crisis and by the German longing for peace, which was interpreted abroad as a sign of weakening of the German people. Peace would be brought no nearer, he said, by such things, adding that the government would continue its efforts for peace, but would avoid earlier mistakes.

Chancellor Michaelis intimated that the prospects for a speedy peace were not bright but that unexpected developments might at any moment bring the question to a head and produce tangible results.

## APPEALS TO COURT FROM DECISION

SPRINGFIELD, Ill., Aug. 3.—Clarence H. Benner, of New York City, through his attorney, E. W. Zolne, has filed an appeal in the circuit court here from a decision of the Illinois State Public Utilities commission authorizing the issuance of \$65,000,000 in preferred stocks, 6 and 7 percent, by the Chicago, Rock Island and Pacific railroad, of which Verner is a stockholder. Verner takes the ground that the company should not issue preferred stocks to such a large amount, and objects to the plans for re-organizing the company, which make this stock issue necessary. The appeal will be given a hearing in the next session of the circuit court here in September.

SOLDIERS RECEIVE MAIL REGULARLY

WASHINGTON, Aug. 3.—American soldiers at the front now are receiving their mail without interruption as a result of the establishment of the United States postal agency in France, Postmaster-General Burleson announced today.

EXPERIENCED WORKERS UNDER THE DIRECTION OF MARCUS H. BUNN ARE HANDLING MAIL MATTER AT THE BASE POST OFFICE AND AT BRANCHES ESTABLISHED AT PARIS, THE TRAINING CAMPS, AND AT THE AMERICAN PORT OF DESEMBARKATION.

At present all letters sent to or received from soldiers must bear the regular domestic rate of postage.

STOP FORAGING EXCURSIONS.

Copenhagen, Aug. 3.—The favorite sport for hungry Berliners of foraging excursions to adjacent rural regions, according to German newspapers received here, has been stopped by the military authorities, who have made the purchase or sale of eatables under such conditions a crime punishable under martial law. Gardemars have been instructed to confiscate all foodstuffs captured in transit.

AMERICAN SHIP FIGHTS SUBMARINE

An Atlantic Port, Aug. 3.—An American tank steamship loaded with gasoline was engaged in a running fight with a German submarine on July 10 when near the French coast and escaped destruction by superior speed after a torpedo had been launched and 21 shots had been fired from the U-boat's deck gun, according to officers of the vessel on arrival here today.

U-BOAT TO REMAIN INTERNED

Amsterdam, Aug. 3.—A semi-official statement received here from Berlin says that the German submarine U. B-6 will remain interned in Holland and the U. B-30 stranded on a Dutch Island last February. There are no available records concerning the U. B-6.

CONFIRMS REPORT OF RUSS IMPROVEMENT

LONDON, Aug. 3.—The Times correspondent at Russian headquarters on the southwest front, under date of July 31, confirms reports of improvement in morale in the Russian army as a consequence of measures against desertions and panics. The correspondent says that disaffected Russian regiments have returned to the front.

## MAKE PROGRESS IN MOBILIZING TENTH

SPRINGFIELD, Ill., Aug. 3.—The first companies of the Tenth Illinois Infantry began arriving here this morning and were ordered to proceed to Camp Lincoln where they will be put under canvas. The entire regiment will reach the city before night.

Company E of Quincy is the only company equipped with uniforms, Adjutant General Dickson stated today.

Other companies are drawn from Danville, Mattoon, Champaign, Lacon, Aurora, Rochelle, Rockford, Monticello, Monmouth, Peoria, Freeport and Decatur.

Col. O. P. Yeager commander of the regiment, has been here several days preparing for the coming of his men.

The Ninth Infantry, now at Camp Lowden, will be moved to Camp Lincoln probably tomorrow, it was announced today. The regiment, recently created, is making good progress in drill, officers state.

## SEES INDICATION OF PRECARIOUS CONDITION

BERLIN, via London, Aug. 3.—The North German Gazette sees in British interest in the fulfillment of French war aims an indication of a precarious condition of the Entente Allied cause. It says:

"A notable indication of the precarious conditions of the Entente championing of French lust for Alsace-Lorraine and English fulfillment of French wishes.

"A perusal of the text of Balfour's speech, as it has come to hand, would seem to indicate that this interest is only valid, if, as he assumes, the war will end favorable for England. So long as the Entente prospered and French war fervor required no stimulant England appeared wholly unconcerned regarding French war aims. Now that France is revealing signs of exhaustion England is endeavoring to save this ally by revivifying its avarece."

## CHARGES AMERICANS STARTED MACHINATIONS

AMSTERDAM, Aug. 3.—Count Von Reventlow in an article in the Tages Zeitung, referring to Arthur J. Balfour's speech in the house of commons in which he spoke of the nationalities of Austria-Hungary determining their own course of future development tells his readers of wide-spread machinations of American agents in Austria-Hungary started by former Ambassador Penfield long prior to the Austro-American breach.

The article says that Americans who left Austria soon after the breach talked confidently to neutrals of impending complete political isolation of Germans in Austria, while in Hungary also secret organization of Entente nations and America soon would bear fruit. Both predictions have been fulfilled, says Count Von Reventlow, who darkly adds: "How long the former Ambassador to Constantinople, Elkus, remained in Vienna, or whether he is still there we do not know."

Balfour's ideas, says Count Von Reventlow, is the dissolution of the Austro-Hungarian monarchy, which squares exactly with the aims of the Czech Poles.

AUGUST BEST TIME  
TO SEED ALFALFA

This Month Generally Considered Most Favorable Time for Planting —A Good Seed Bed Needed

Along with other crops alfalfa this year is bringing high prices and the season has been favorable for growth. The third cutting is just about ready. All things considered the month of August is usually considered the best time for seeding. The following article on this subject is taken from Wallace's Farmer.

Without much question, there will be more alfalfa seeded in the corn belt during August and early September of this year than during any previous two months in history. We are beginning to find that alfalfa will grow on most of our soils without any extensive preparation.

Spring seeding gives very nice results under many conditions, but one year with another, taking the corn belt as a whole, the month of August is the best time to seed alfalfa.

The first thing to do is to get on the small, early grain stubble at the earliest possible date and disk and plow, and then disk again.

With the soil in as excellent condition as it is in over a large part of the corn belt at this writing, we rather suspect that several thorough diskings will answer the purpose very nicely on many types of soil.

However, if a man can spare the time, plowing pays, provided that it can be done several weeks before the alfalfa is seeded, and provided that enough diskings can be given to make a solid, smooth seed bed.

Inoculating Seed

On the majority of farms it is possible to succeed with alfalfa without any special preparation either of the seed or of the soil.

But oftentimes failures result either from lack of inoculation or lack of lime. A practical method of inoculation which has proved quite effective is that known as the glue method. Dissolve a couple of handfuls of furniture glue in a gallon of boiling water, and, after cooling, sprinkle enough of this solution over the alfalfa seed to thoroughly moisten it, stirring the seed constantly so that it will be evenly moistened. Then sprinkle on the freshly moistened seed some finely powdered alfalfa or sweet clover dirt. This dirt should be prepared in advance. It may be secured anywhere that inoculated sweet clover or alfalfa plants are growing. The sweet clover plants along the roadside are almost invariably well inoculated. After digging the dirt dry it in a shady place and pulverize it into a fine dust. Use two or three quarts of the dirt for each bushel of seed, mixing thoroughly with the moistened seed, and stirring until there is no danger of the seed clumping together in balls. This method is simple, cheap and effective.

The Varieties

Fully 90 per cent of the alfalfa seeded is the common variety as grown in Nebraska, Kansas, the Dakotas, and other western states.

This common variety will ordinarily live thru about four out of five winters as they usually run in the central part of the corn belt.

To stand the extreme cold, it takes one of the hardy varieties like the Grimm, Baltic, Cossack and Turkistan. The seed of these varieties costs from two to five times as much as the seed of common alfalfa. We rather doubt the advisability of the beginner starting in with these more expensive hardy varieties, although they are certainly well worth experimenting with on small plots. But the man who has had experience with alfalfa, and knows that his soil conditions are right, may find it decidedly worth his while to use one of these hardy varieties instead of the common sort.

The beginner had best use twenty pounds of alfalfa seed per acre. Those who have had long experience with the crop, however, and who are thoroughly familiar with their soil conditions, often advise only ten to fifteen pounds. It is possible to get a very good stand with only five pounds of alfalfa seed per acre.

It seems to make very little difference whether alfalfa seed is broadcasted or drilled in. As a matter of fact, most people seem to get slightly better results from an even job of broadcasting, drilling often falling, owing to the probability of putting the seed in too deep. If alfalfa is planted over three-quarters of an inch deep, there is very serious danger of it not coming up if a heavy rain follows.

Some soil requires lime if it is to grow really good alfalfa. The necessity for lime may be known by testing the soil with a strip of blue litmus paper. Buy a dime's worth of blue litmus paper at the drug store, and place a strip of it in contact with the moist soil for a few minutes. If the paper is turned red, it is an indication that a ton or two of ground limestone per acre will be of great benefit.

As to the time of seeding, any time during August or early September will do very nicely. It is really surprising how late alfalfa may be seeded in the average season, and yet live thru the winter. Nevertheless, we would make a strenuous effort to seed not later than the 10th of September.

Just received a beautiful new line of early fall hats. L. C. & R. E. HENRY, Opera House Milliners.

## WILLIAMS AND DOUGLAS ENABLE CUBS TO WIN

CHICAGO BEATS ALEXANDER;  
BLANKS PHILLIES.

Douglas Does Not Permit a Runner to Pass Second Base—Brooklyn Hits Doak Hard and Wins from St. Louis.

Chicago, Aug. 3.—Cy Williams and Phil Douglas made it possible for Chicago to beat Alexander today and shutout Philadelphia 2 to 0. Douglas did not permit a runner to pass second base. Williams' single in the first inning, following Mann's single and a fielder's choice, gave Chicago its first run. Williams scored the other run as a result of his triple and a sacrifice fly.

KAISER BILL'S MACHINE  
(With an apology to the author of Dunderbeck's Machine).  
There was a good old German man, his name was Kaiser Bill, Now he made lots of sausage meat with cannon made to kill. He had the greatest butcher shop this world has ever seen— And just to make the killing good, he built a war machine.

Chorus:  
Oh! Mr. Kaiser Bill, how could you be so mean?  
Now aren't you awful sorry you invented that machine?  
For pa and ma and kiddies to, will never more be seen  
They grind them up in sausage meat in Kaiser Bill's machine.

Now Uncle Sam was fast asleep until one day Kaiser Bill said, "We must have more sausage meat, you Yarkees we must kill!"  
Then Uncle Sam woke up and said "By gum, this must not be. I'll have to smash his war machine. If I must cross the Sea!"  
Chorus. (Same as first.)

Now one day as it all turned out, the thing went kind of slow; So Kaiser Bill he crawled inside to find out that you know. And while he was inside the thing our Army and our Fleet, They give the crank one awful turn and Bill was sausage meat.

Chorus:  
Oh! Mr. Kaiser Bill, how can you be so mean?  
Now aren't you awful sorry you invented that machine?  
For pa and ma and kiddies too, now live with lives serene— Since Uncle Sam hopped out of bed and smashed your d— machine.

## LIBRARY HAS FINE SET FOR WOMEN READERS

"Woman Citizens' Library" Just Received Here Contains Last Word On Suffrage and Many Other Topics of Civic Interest.

"The Woman Citizens' Library" compiled by Dean Shailer Mathews, is the title of a fine new set just received by the Jacksonville Public Library. The work contains the writings of over forty well known authorities and is described as "a systematic course of reading in preparation for the larger citizenship."

A Woman's Revolution.  
"No institution in our complicated society will escape change," says Dean Mathews in the preface, "in the new age of woman. What steam did to an age of hand labor and electricity to an age of steam, the woman worker and the woman citizen will do to a civilization built up about man's privilege."

Other new books at the library this week are:

Health.  
Gardner—Public Health Nursing.  
Newlands—Foods and Cookery.  
Two Small Books for Summer Reading.

Fordyce—Touring Afoot.  
Foster—Should Students Study? Description and Travel.  
Haynes—Guide to the Yellowstone Park.

Rand McNally—Auto Trails Map. This is a folding map. There is also a large map covering Illinois, N. E. Missouri and western Indiana at the library.

Biography and History.  
Gibbons—Retrospect of Fifty Years. Vol. III.  
Rai—Young India.

Recreation.  
French—Hiding Places.  
Hutton—Mag Pys.  
Onions—The Girls at His Billet.  
Kelland—Sudden Jim.

GASOLINE  
Oh, yes they are selling "that poor Standard stuff" at all the stations just now. Whenever the "Independents" run out of "gas" they always turn to the old reliable Standard Company producing about 95 per cent of all the oil products of the world. Remember our price is 20c today—their price is more.

FIGHT FOR YOUR LIFE  
Duty Demands  
Robust Health  
Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to ill after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains those mighty strength-producing agents, leithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, sallow, pale complexion that "all in" feeling and frail bodies are due to lack of leithin and iron peptonate in the system.

Your mental and physical strength and endurance depend upon a leithin and iron peptonate laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of effecting beauty is not needed by hypoferrin women and girls. Blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you can confront the world on an equal footing with anyone.

Hypoferrin may be had at your druggist or direct from us for \$1.00 per package. It is well worth the price. The Bestanal Remedies Co., Cincinnati, Ohio.

## U. S. Government Indian Land Sale

The Last Two Days Here

The Private Oklahoma Indian Land Car

now in Jacksonville has been sent here for the purpose of advertising the opening of a half million acres of Choctaw and Chickasaw Indian lands, located in southeastern Oklahoma, which are soon to be sold by the U. S. Government—on easy annual payments. All in the Oklahoma oil belt.

This Car Spells Opportunity to You!

## OIL! OIL! OIL!

THE GREAT NEW STATE OF OKLAHOMA rolls in liquid wealth. Thousands made rich. Oil hits top at \$1.70 a barrel! State produced 157,000,000 barrels last year. Throughout the oil fields are wonder examples of fame and fortune gained at the rush of oil. Dan Tucker, 10-year-old boy, gets \$190 daily, oil royalty. Sarah Rector, a colored child, receives fifteen thousand dollars monthly. Henry Page, former railroad brakeman, gets one hundred thousand dollars monthly from oil leases. Roy Johnson, a Michigan printer, cleared a hundred thousand dollars on a two hundred dollar investment. Cole McGhee, Oklahoma carpenter, made \$83,000 on one hundred and seventy-five dollar investment. Hundreds of others, purchasers of cheap Indian lands, and heirs to Indian allotments, have reaped huge fortunes from oil royalties.

This is the chance of a lifetime, as the government does not require you to live on these lands or improve them, and they can be bought direct from the U. S. Government at a few dollars per acre on easy payments. Irrigation not necessary. Forty-five inches of rainfall, agricultural, grazing and timber lands, close to railroads and prosperous, growing town.

The Oklahoma Indian Land Car contains an extensive display of Oklahoma products, both agricultural and mineral, as well as numerous photographic views of western development. For those interested in the Indian lands we have maps, charts, plates, blue prints, etc., and skilled demonstrators are on hand at all times to acquaint the public with the terms and conditions.

## DON'T FORGET

The population of the United States doubles every thirty years, but there never will be any more land there is today. Think it over. Open daily and Sunday, 9 to 12 a. m., 1 to 6:00 p. m. and 7 to 9 p. m.

### MRS. GEORGE LOYAL TO HUSBAND'S BELIEFS

Declares that Single Tax Plan Will Solve All Our Present Day Tax Troubles

"World financial readjustment after the present world war, if it lasts many years longer, will force all the nations, including the United States, to adopt the single land tax system, because the products of labor cannot pay the cost. Land being the source of all wealth and the only taxable commodity not produced by labor, must pay the war bill."

This is the opinion expressed by Mrs. Marie Hitch George of New York, widow of the late Henry George Jr., single-tax exponent and a Chicago woman.

The father of Mrs. George's late husband was the founder of the single-tax theory. Henry George 2d was a member of Congress from New York until 1914. Mrs. George is closely associated with Mrs. Joseph Fels in the single-tax work in New York.

"When this principle of making land values pay all taxes is accepted by all the nations of the world, as I believe it will be after this world war, people will no longer suffer from fictitious shortages of necessities," declared Mrs. George. "The owner of land will be compelled to make it produce its maximum, so that he cannot afford to pay taxes on idle land. Thus the supply will equal the demand for foodstuffs and other necessities, and prices will be determined on supply and demand. There will be no incentive to withhold production in order to hoist prices."

"For instance, the State of Illinois, thru its state council of de-

fense, is just now trying to force down the price of coal to the consumer. If they could adopt the single tax on land principle, sufficient coal would be produced to meet the demand and a fair profit obtained by the coal producers. There is sufficient coal in the United States to last 100,000 years, so why should there be any lack of coal at a fair price."

Mrs. George pointed to the fact that there are now many single taxers holding office in Washington, as an indication that the Wilson administration is kindly disposed toward the land tax idea. Among these she named Secretary of the Interior Lane, Assistant Secretary of Labor Louis F. Post, Justice Louis D. Brandeis and others.

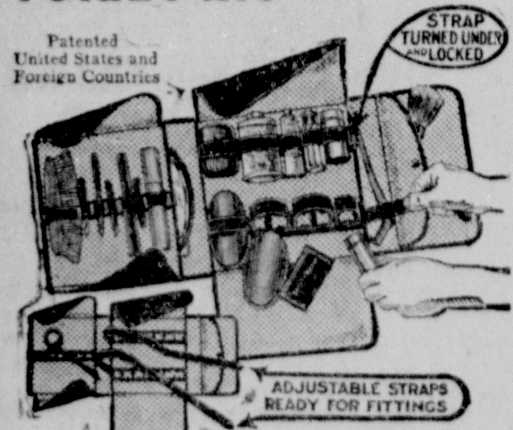

**Not Envious of Land Owners** "I am not envious of the man who owns the land, either in the cities or in the country," explained Mrs. George. "I am willing that they keep the land, but pay to the public, which is the government, that which the public itself creates, for land without people is of no value."

Mrs. George announced that she is planning to devote her voice to singing with the view of aiding in the single tax campaign. She says her children will also perpetuate the principle of taxation founded by their grandfather.

### SCOTT COUNTY BOARD READY FOR WORK

Physical Examinations, Which Will Begin Tuesday, to Be Made in Court House—Winchester News Notes—Good News from the Red Cross.

Winchester, Ill., Aug. 3.—The Scott county exemption board has been busy the past few days answering questions and making preparations for the physical examination of drafted men. The first forty-eight will be examined Tuesday, a like number will appear Wednesday and the third forty-eight whose names have been posted will come before the board on Thursday. All examinations will take place in the office of George Hogan and in the room across the hall, formerly occupied by the county superintendent of schools.

**Red Cross Progress.** Fritz Haskell, the chairman, made the announcement Friday that Scott county lacked but fourteen names of having her membership quota. The campaign seemed to be progressing well and the full quota, which called for \$2,000 in money and 1510 members, will in all probability be exceeded.

**Personal Mention.** William Wells and daughter expect to go to Jacksonville Saturday morning to meet Mrs. York who is coming to visit them from North Dakota.

Miss Freda Johnson returned Friday to her home in Barry, having completed a visit of five weeks at the home of her uncle and aunt, Mr. and Mrs. Ed Rohrig. Mr. Rohrig accompanied his niece as far as Chapin.

Rev. Mr. and Mrs. Rhinehart of Bluffs were visitors here Friday.

Miss Helen Lowenburg of Natchez, Miss., is a guest of Miss Madeline Hainsworth.

Mrs. Leonard Taylor and children of East St. Louis are visiting Mr. and Mrs. George Stewart. They were called here by the illness of J. R. Peak, whose condition yet remains grave.

**Kirkpatrick Child Dies.**

Word came to Winchester Friday of the death of the little child of Mr. and Mrs. William Kirkpatrick, of Yuma, Colo. Decision was made to make burial here and the body is expected to arrive Saturday morning.

**Just received a beautiful new line of early fall hats. L. C. & R. E. HENRY, Opera House Milliners.**

### WILL FILED FOR PROBATE

The last will and testament of Mrs. Frances A. Humphrey was filed for probate with the county clerk Friday. After providing for the payment of all just debts and funeral expenses the remainder of the estate both real and personal is bequeathed to Harold Creighton Humphrey son of the testator in fee simple, except the sum of \$200 cash which is bequeathed to a sister, Miss Agnes Lusk. In case of the death of Harold Creighton Humphrey without issue the estate is to go to the sisters of the testator, Mrs. Abigail Goodall and Miss Agnes Lusk, if they be living, to be shared equally. In case one of the sisters is dead then the estate shall go to the survivor. The son Harold Creighton Humphrey is named as executor of the will without bond. The instrument is dated July 3, 1917, and is witnessed by Jewell E. Scott and W. H. Self.

### ANNOUNCEMENT

I hereby announce my candidacy for the nomination for the office of county commissioner subject to the decision of the Republican primary, September 12, 1917.

FRED J. SCHOLFIELD.

### MISSIONARY SOCIETY HAS NOTEWORTHY MEETING

Gathering of C. W. B. M. at Home of Mrs. J. W. Litter Addressed by Missionaries, who Give Interesting Talks to Christian Church Women

Members of the Missionary society of Central Christian church were entertained at the home of Mrs. J. W. Litter, 1326 West State street, Friday afternoon. A devotional program including a number of hymns was carried out. The principal interest in the occasion centered about the addresses given by Rev. and Mrs. E. K. Higdon, who as missionaries under the direction of the foreign board of the Christian church will leave this fall for work in the Philippines. Both are graduates of Eureka college and supplemented their training with other studies and with work along home missionary lines. The addresses Friday afternoon proved not only of missionary but general interest.

Musical features of the program included a violin solo by Miss Anna Frances Bradley and a piano solo by Miss Zeta Wood, Mrs. W. O. Wait gave a very interesting talk on the topic, speaking of the religious congress of Latin-American countries recently held in Panama. Mrs. Wood read a letter from a missionary. A clever recitation was given by Xavier Walter. Questions and answers from the Missionary Tidings were given and a talk on the Evangelical convention in Mexico was made by Mrs. W. J. Fell. The program was concluded by a song and repetition of the C. W. B. M. benediction.

After the program came a social hour during which Mrs. Litter and assistants served excellent refreshments. The occasion was one of great pleasure for all.

### EARNINGS OF C. & A. SHOW MARKED INCREASE

Largest Earnings in the History of the Company During the Last Fiscal Year—Business Now Heavy

The gross earning statement for the Chicago & Alton for June and for the last six months of the fiscal year show a remarkable gain. The earnings for June ran \$350,109 ahead of the same month a year ago, but the net earnings after taxes had been paid, show an increase of only \$80,224, indicating how heavily increased operating expenses have eaten into the surplus. The gain for the last six months of the fiscal year, extending from January 1 to July 1, was \$1,558,883, while the net earnings, after taxes, increased \$113,085.

The fiscal year on the Alton, which closed one month ago, was marked by the largest earnings in the history of the company and the year now opening promises to exceed that of the year recently closed. The road is now doing as much business during the summer months as ordinarily was handled in the fall, the heaviest months of the year under former conditions. There is no limit to the business except as furnished by the ability of the power to handle. There is always more than can be moved, and there will likely be no let up until the war is ended.

### SIGNAL CORPS WORK

Signalling from the armory hall to the Avers Bank building has been carried on by men from Co. B for the past two days and this practice has attracted considerable attention. The men go thru the "wig-wag" code in true signal corps style, furnishing an interesting demonstration of this branch of the service. A thorough knowledge of the signal code is required of all non-commissioned officers. Knowledge of the code is much used in army work commands being given in this manner during all large field operations.

### REV. M. L. PONTIUS AND FAMILY AGAIN AT HOME

The Rev. M. L. Pontius, pastor of Central Christian church, and family, have completed a month's vacation trip, arriving from Taylorville, Ill., Friday afternoon. Mr. and Mrs. Pontius spent most of the time at Auburn, Ind., and at Lake George, which lies on the Indiana-Michigan line. They made the trip by automobile, stopping at Taylorville for a two-day visit on their return.

### WILL DISCUSS AMUSEMENTS

Evangelist Chester Birch, who is conducting the tent meetings at Woodson will discuss "Popular Amusements," at the service this evening. This is a subject that Rev. Mr. Birch has used as a theme in chautauqua work and he is anxious that a large audience hear it. The meetings will continue up to factory manner and a good attendance being present Friday evening despite threatening weather. The meetings will continue up to and including August 12.

### WILL SPEAK AT GRACE

The Rev. J. E. Artz of Ashland will be in the city Sunday and will fill the pulpit at Grace M. E. church at the hour of the morning service.

### TO PREACH AT EUREKA

The Rev. E. K. Higdon, in Jacksonville for a visit while on his way to the Philippines, will fill a pulpit Sunday at Eureka, Ill.

### IRVIN POTTER TO WED MISS DRACH

Ceremony Will be Performed in Downer's Grove Tonight—Graduate From Illinois College in Same Class.

The marriage of Irvin B. Potter of this city and Miss Mabel Drach of Downer's Grove, Ill., will be solemnized tonight at the home of the bride's mother, Mrs. Gustav Drach. The ceremony will be performed by Rev. F. Ray Elder, pastor of the United Presbyterian church of Chicago, who is a cousin of the groom. Only relatives and a very few intimate friends will be present for the service. Mrs. Homer H. Potter of this city will play the wedding march.

After a brief wedding journey the newlyweds will come to Jacksonville to establish their home.

Miss Drach and Mr. Potter were members of the same class in Illinois college, graduating in 1911. The friendship which began in college days has continued thru the subsequent years and will culminate in the wedding tonight. Miss Drach's home was formerly in Jacksonville but since graduating she has been engaged in teaching work. Mr. Potter after graduation also was determined to continue in educational work and for the past two years he has been instructor in mathematics at Illinois college. He is a son of Mrs. Eva Potter of this city and his record and family name are such as to give him the confidence and esteem of all who know him. In student days Miss Drach was popular in college circles and she was also active in the work of the Baptist church. The new home will be established in Jacksonville under very happy conditions.

Among the people from this city who will attend will be Mrs. Eva Potter and Mr. and Mrs. Homer Potter.

### TESTED RECIPES.

From The Mother's Magazine for September.

**Apricot Whip.**  
1 package orange gelatin.  
1 cupful apricot pulp.  
Whipped cream.  
Dissolve gelatin and add flavor according to directions on package. When it begins to thicken add the cupful of apricot pulp, after it has been put thru a colander. Whip until very light and turn into a mold. Serve with whipped cream.

**Apples Baked With Rice.**  
Pare and core the apples. Fill the holes with sugar and chopped raisins. Place in a baking dish and fill the spaces between the apples with rice that has been boiled for fifteen minutes. Cover and bake for fifteen minutes; remove cover and bake for fifteen minutes longer. Dish up the rice and serve hot with cream.

**Green Tomato Mince-meat.**  
1 peck green tomatoes  
1 peck apples  
3 pounds raisins  
2 cupfuls water  
2 cupfuls vinegar  
5 pounds sugar  
1 1/2 pounds chopped suet  
2 tablespoonfuls allspice  
3 tablespoons cinnamon  
2 tablespoons ground cloves  
Wash, pick over and chop the tomatoes in small pieces. Peel apples and cut in small pieces. Place tomatoes in a colander, pour boiling water over them three times, draining well. Put all ingredients in a preserving kettle and simmer slowly until tender.

**Orange Trifle.**  
2 tablespoonfuls gelatin  
1/2 cupful cold water  
1 1/2 cupfuls boiling water  
1 cupful sugar  
1 cupful orange juice  
Grated rind of one orange  
1 tablespoonful lemon juice  
1/2 pint heavy cream  
Walnuts  
Soak gelatin five minutes in cold water, dissolve in boiling water, add sugar, orange juice, grated orange rind and lemon juice, and strain. Pour one half the mixture into a shallow pan, dipped in cold water, and chill. Set bowl containing remaining mixture in a pan of ice water and stir constantly until mixture begins to thicken; then fold in heavy cream, beaten until stiff. Turn into a mold, first dipped in cold water, and chill. Remove from mold to serving dish, when firm, and surround with the jelly from the pan, cut in cubes. Garnish with Walnuts.

**CHARGED WITH DISTURBING PEACE**  
Samuel Williamson, colored, swore out a warrant against his wife yesterday charging her with disturbing the peace. She was fined \$3 and costs in Justice Dyer's court on the charge.

Misses Mamie and Nellie Cunningham of West College avenue are spending a few days in Chicago.

### TO CAN BERRIES FOR RED CROSS

Mrs. Emma Hampton Has Plan With Which Others are Aiding.

Mrs. Emma R. Hampton, living seven miles west of Jacksonville on route No. 1, has devised an unusual plan for raising Red Cross money. Mrs. Hampton has secured the privilege of picking the blackberries on the farm of Misses Hattie, Rachel and Ida Scott a few miles west of the city. There are a great many blackberries there and the Misses Scott agreed to allow Mrs. Hampton to pick all she can use in this Red Cross plan. Mrs. Hampton proposes to can the berries and sell them, the whole amount of the returns to form a contribution to the Red Cross fund. Mrs. Hampton has provided herself \$9.50 worth of jars and George T. Douglas has contributed two dozen pint jars. Jenkins-Bode company, Montgomery Ward & Co. have each given 50 lbs. of sugar and Miss Clara Brown \$5 to purchase sugar or other supplies needed. Miss Maria Fairbank will take care of the expenses for packing and the government will transport supplies without cost. Mrs. Hampton needs some assistance in this work and will be glad to have anyone who is willing to help to write her at once at the address given.

### BUYING GAS

"Why do you charge so much more than Priest?" said a prospective customer to a garage man the other day. "Oh, he sells only to farmers and poor Standard Oil stuff at that," came the reply. Then "the farmer" drove straight to Priest's and bought 22 gallons. They are selling the Standard product today but not at 20c the price Priest is getting. You buy from him at the WHOLESALE price, 20c per gallon.

### WILL PLAY THIS AFTERNOON

The local United Commercial Travelers baseball team will play the Springfield U. C. T. team at Jacksonville State hospital diamond this afternoon. The teams played in Springfield last week and the locals won by a score of 3 to 0. The Springfield boys say they expect to reverse the decision in the game this afternoon. Manager Lavery will use practically the same lineup that he used in Springfield, tho his pitcher has not yet been selected. The game will be called at 2:30. There is plenty of good shade and seats and no admission fee will be charged and it is hoped that a large crowd will be present.
